DESCRIPTION

- THUNDERWEB design is characterised by a conical shaped web which gets thicker towards the back of the drill bit.

- HOUNDERWEB design is characterised by a conical snaped web which gets thicker towards the back of the dr
 Standard drill bits have a constant thickness throughout their length.
 Even at the narrowest point the THUNDERWEB core is thicker than that of a standard drill bit.
 Parabolic web cross section: Large web thickness. Strength built in.
 Flute geometry THUNDERWEB flute form ejects hot chips rapidly. Dissipates heat better increasing life time.
- 135° Split point Precision starting, drill bit won't walk on material surface.
- Polished finish reduces friction and extends drill bit life.
 Impact resistant ABS case with added rubber corner protection.
- Accepts higher feed pressure and torque equalling less breakages.

FEATURES

Symbol	4932352346
L [mm]	40.00
D	1.50
Тур	HSS-G Thunderweb
Ilość elementów	2
Długość robocza	18.00
Uchwyt	cylindryczny
