DESCRIPTION

- The MILWAUKEE® HOLE DOZER™ is the jobsite workhorse that provides unstoppable durability through the most demanding applications.
- Multiple leverage points to remove material out of the holesaw for faster plug removal.
- Deepest access for thick plugs.
- Higher access for thin material.
- Minimises downtime between cuts.
- New coating allows less friction and increases drilling speed.
- A 3.5 teeth per inch tooth design with a positive 10° tooth angle provides the following benefits:
- Faster and more aggressive cut.
- Improved heat dispersion during cutting ensures that the teeth stay sharper for longer.
- Deeper curved gullets provide more efficient chip clearance preventing clogging and heat build up.
- Special shaped tooth angle has less tendency to snag on thinner materials.
- This high quality holesaw range is the perfect solution for cutting all types of materials:
- Steel up to 1000 N/mm² strength,
- Stainless steel and acid resistant steel,
- Non-ferrous metals,
- Cast iron,
- Aluminium,
- Wood,
- Medium density fibreboard (MDF),
- Gypsum plasterboard,
- Sandwich materials,
- PVC.
