

Ingersoll Rand fastening portfolio

Ingersoll Rand offers a full line of production fastening equipment, including air and electric screwdrivers, nutrunners, drills, riveters, pulse tools, as well as hand-held and multispindle fixtured DC nutrunners. Whether you need a solution for a single, specific application or an entire assembly line, you can trust our century of tool design experience to meet your needs.

CALIBRATION EQUIPMENT

EXTT tester

- Compact bench-mount unit
- Integrated torque transducer in (4) ranges from 1 to 30 Nm
- Large LCD screen
- Full keypad and easy-to-navigate menus
- Full statistical capabilities
- Variable rate rundown adapter included
- Rechargeable battery with auto-shutdown feature

Ideal for testing and calibration of lower torque assembly tools in a tool crib, calibration lab, or workstation.

EXTA analyzer

- Lightweight portable unit
- Compatible with full range of Industry Standard (IS) and Smart external transducers
- Large LCD screen
- Full keypad and easy-to-navigate menus
- Full statistical capabilities
- Rechargeable battery with auto-shutdown feature

Ideal for use with a broad range of external transducers to test output of assembly tools on the application or wherever torque verification is required.

Accessories

- Rotary transducers
- Stationary transducers
- Joint simulator kits
- Rundown adapters
- Printer and PC cables
- Transducer cables
- PC download software
- Battery charger (100-240V)
- Torque wrenches
- Calibration service

Take advantage of our extensive line of accessories and services to optimize your assembly and quality assurance processes.

Transducers		Joint Simulator Kits			Torque Wrench	Other Accessories

						Cable - IS transducer Cable - PC Cable - printer Neck strap Port saver - 9 pin Port saver - 25 pin Battery charger	ETA2-TC ETA2-PC99 ETA2-P925 ETA2-STRAP EXT-PS9 ETA2-P525 EXT-BC

Ingersoll Rand Industrial Technologies provides products, services and solutions that enhance our customers' energy efficiency, productivity and operations. Our diverse and innovative products range from complete compressed air systems, tools and pumps to material and fluid handling systems and environmentally friendly microturbines. We also enhance productivity through solutions created by Club Car®, the global leader in golf and utility vehicles for businesses and individuals.

Expert EXT Series Calibration Equipment

Competition is driving product quality requirements to new levels. Meeting these demands requires keeping your processes in control and your tools working within specifications.

The solution:
Expert EXT Series calibration equipment

Our Expert EXT Series calibration equipment is the ideal quality-control companion for assembly operations with stringent torque control standards. Choose from our offering of easy-to-use torque testers, analyzers, transducers, and joint kits to set up and calibrate your full portfolio of precision tools.

EXTT Series torque testers

The EXTT Series torque testers comprises four models of torque testers with integrated transducers that allow rapid and accurate torque checking of lower torque fastening tools from 0.1 to 30 Nm (1 to 265 in-lb). The EXTT's enhanced features include track and peak modes for most hand and power tools, a pulse mode that measures and counts pulses of pulse tools, and a click mode for hand-click wrenches.

EXTA Series torque analyzer

The EXTA Series torque analyzer shares the same compact, sleek design but is designed for portability and use with a broad range of external transducers: whether torque only or torque and angle. It can dynamically measure and record the output of precision fastening tools on the application or the workbench in both directions when coupled with our automatically recognized Smart or Industry Standard transducers. Joint simulators are also available to emulate different joint rates from hard to soft and can be used with both stationary and rotary transducers when working away from the application.

Expert EXT Series — torque testers and analyzers

Power and hand tool compatibility means only one system is needed to setup and calibrate all of your precision tools.

Durable, ESD-safe construction holds up to factory environments.

Full statistical capabilities include Cp, Cpk, Pp, Ppk, CMK, CAM, range, mean, and standard deviation.

Compact and lightweight with rechargeable battery provides ease of use and portability on the assembly line and space savings on the workbench.

EXTT-30 shown with integrated transducer and rundown adapter.

Large LCD screen shows clear, easy-to-read test results and menus.

EXTA SERIES — EXPERT TORQUE ANALYZER				
Model	External Transducer	Data Transfer	Auto Recognition	LCD Screen
EXTA	Smart (UTA) or Industry Standard (IS)	PC or Printer	Yes	62 x 62 mm

EXTT SERIES — EXPERT TORQUE TESTERS				
Model	in-lb	Nm	Rundown Adapter*	Rundown Adapter Service Kit
EXTT-1	0.88 – 8.8	0.1 – 1	EIT-RA-1	EIT-RA-1-KIT
EXTT-4	3.50 – 35	0.4 – 4	EIT-RA-4	EIT-RA-4-KIT
EXTT-12	10.6 – 106	1.2 – 12	EIT-RA-12	EIT-RA-12-KIT
EXTT-30	26.5 – 265	3.0 – 30	EIT-RA-30	EIT-RA-30-KIT

* EXTT tester includes rundown adapter, carrying case, battery charger, manuals, and a certificate of calibration. EXTA analyzer includes carrying case, battery charger, manuals, and neck strap.

Rotary transducers

Stationary transducer with joint simulator

Soft-touch keypad makes menu navigation and test setup simple.

Audible and visible indicators give High, Low, and Pass cycle status.

Quick download of results to printer or PC for data analysis, graphing, and documentation or calibration of DC electric tools using ICS software.

Dimensions
209 x 194 x 78 mm
Weight
2.2 lb / 1.0 kg (EXTA)
4.5 lb / 2.1 kg (EXTT)

TYPICAL SCREEN

Number of pulses (pulse mode only) — 9

Torque reading — 24.18 Nm

Tightening direction — [Symbol]

Transducer information — UTA 75.00Nm S/N = 27916

Total time torque is applied (cycle time) — 2.97

Cycle end time — 1.0

Filter frequency — 1536 Hz

Press the corresponding number on the keypad to access the features displayed on the bottom row of the screen.

- Monitors torque, angle, time, and pulse count
- Reads in peak, click, pulse, or track mode
- Stores 200 time-stamped readings
- Auto-recognition of Smart transducers
- Seven units of measure
- Selectable filter frequencies
- DC tool calibration via ICS software
- Selectable power-save settings
- Selectable languages include English, French, German, Italian, and Spanish
